Where Anglo Scottish are the lender to process your application, we will perform credit and identity checks on you with one or more Credit Reference Agencies ("CRAs"). Where you take products or services from us, we may also make periodic searches (up to annually) at CRAs to manage your account with us. To do this, we will supply your personal data to CRAs and they will give us information about you. This will include information from your credit application and about your financial situation and financial history. CRAs will supply to us both public (including the electoral register) and shared credit, financial situation and financial history information and fraud prevention information.

We will use this information to:

- Assess your creditworthiness and whether you can afford to take the product
- Verify the accuracy of the data you have provided to us
- Prevent criminal activity, fraud and money laundering
- Manage your account(s)
- Trace and recover debts, and
- Ensure any offers provided to you are appropriate to your circumstances

We will continue to exchange information about you with CRAs while you have a relationship with us. We will also inform the CRAs about your settled accounts. If you

borrow and do not repay in full and on time, CRAs will record the outstanding debt. This information may be supplied to other organisations by CRAs.

When CRAs receive a search from us they may place a search footprint on your credit file that may be seen by other lenders. There are two types of searches 'soft credit checks' which has no footprint on your credit file. The other type of search is a 'hard credit check' which will leave a record of a credit file. Too many hard credit checks in a short period of time can affect your credit score for six months. This may reduce your chances of getting credit.

If you are making a joint application or tell us that you have a spouse or financial associate, we will link your records together, so you should make sure you discuss this with them, and share with them this information, before lodging the application. CRAs will also link your records together and these links will remain on your and their files until such time as you or your partner successfully files for a disassociation with the CRAs to break that link.

The identities of the CRAs, their role also as Fraud Prevention Agencies, the data they hold, the ways in which they use and share personal data, data retention periods and your data protection rights with the CRAs are explained in more detail at <https://www.experian.co.uk/legal/crain/>

If you are making an application on behalf of a business or corporate entity credit checks may take place on company directors, beneficial owners and other people associated with the company such as guarantors at the pre-application, application stage, and periodically after that (up to annually).

The CRAs also collect and use personal data for marketing and data profiling activities, to create data modelling tools. These tools are used to model customer behaviour to support marketing, research, brand and product communication campaigns.

You can find out more about how CRAs use your data and how you can opt out at www.experian.co.uk/privacy/consumer-information-portal/

When Anglo Scottish are not the lender but are the broker, the lender that we share your details with to obtain finance for you will carry out their own search. This may be a soft search or hard search depending on the lender. We can advise which type of search upon request.
